

ORBIS Top Frames protect your product during storage and transport by unitizing full pallet loads of beverage products, aluminum and steel cans, glass and plastic bottles, and other rigid packaging. When combined with plastic pallets, these 44" x 56" top frames securely stabilize loads of product.

The 4" or 6" wide perimeter frame provides superior support for many types of product loads. The channeled edge design and structural foam injection molded construction offers exceptional strapping strength. These top frames can be used with a temperature range of -20°C to 55°C (-4°F to 130°F). They are available in three versions for versatility: No Center Stringer, Single Center Stringer and Full Center Stringer.

**44 x 56 4" Top Frame
(Full Center Stringers)**

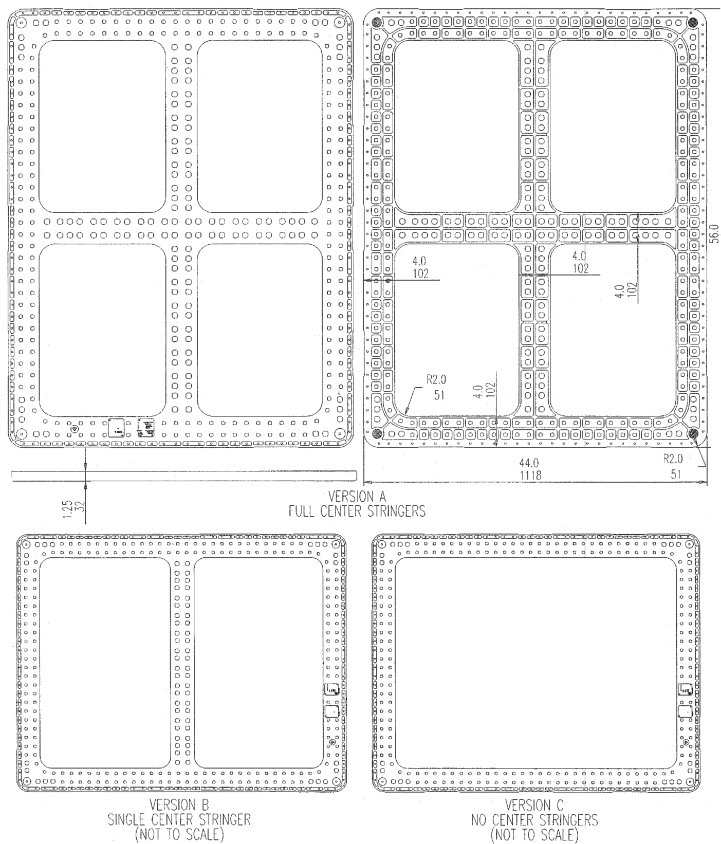

**44 x 56 4" Top Frame
(No Center Stringer)**

Industry Applications:

- Food processing
- Beverage

Plastic Top Frames

Shown: 4" version.

- Consistent weight for accurate transportation costs
- Environmentally friendly and 100% recyclable
- Smooth, all plastic construction protects product (no nails, rust or splinters)
- Reduces packaging waste by eliminating wood pallet disposal
- Improves workplace safety with smooth design and stable stackability
- Rapid economic payback
- Resistant to common chemicals, insects and water

Design:

4" or 6" wide perimeter stringers with strap recesses
 Channeled edge design offers greater strapping strength
 Secure stacking with anti-skid grommets
 Recyclable with no metal inserts
 Washable and weather resistant
 Tolerances: +/- 0.25" or 6.35mm

Options:

Molded-in logo
 Hot stamp
 4" or 6" wide perimeter stringers
 3 versions
