

Our pooling program could save you a SEA of CASH.

(And help the environment at the same time.)

Corbi Plastics specializes in managing the complexities of transporting, tracking and servicing a pool of packaging products throughout all 360° of the supply chain. Corbi offers a **range of options** from asset management to a pooling program. By joining forces with Corbi you can significantly decrease loss, damage and waste **within your supply chain** and eliminate the up-front acquisition investment for packaging materials.

We are experts in managing and servicing nationwide material pools. Whether the

packaging is customer-owned or rented, Corbi manages pools of products to ensure supply chain **ease** for our customers. The constant availability of ready-to-use materials **reduces cost** and **eliminates system downtime** due to packaging shortages and reduces storage requirements.

Combine all of these benefits and join forces with Corbi programs that could really save you a sea of cash.
